

	Technical Data Sheet (TDS) „Instant“ Coating Powder	Country of Origin: Germany 04.07.2014
---	--	---

Product description:

Whey protein based coating powder formulation in instant form

Preparation:

Solving of in cold or hot water till max. 45 % dry matter (until an homogeneous solution is obtained. Note that this limit may depend on mixing available device).

Chemical & physical parameters:

Water:	<= 7 %
Solubility:	completely without clumps
Density:	260 - 290 g/L
Particle size	100 % <1,4 mm
pH:	6,7- 7,5
Fat:	2 %
Ash:	3 %

Sensory data:

Appearance:	white, light yellow powder
Smell:	neutral
Taste:	neutral

Microbiological data:

Total plat count:	< 10.000 CFU/g
Yeast & Mold:	10 CFU/g
Coliforme:	10 CFU/g
E.-coli:	neg.
Salmonella:	neg./1.500 g/L
Listeria sp.:	neg/25g

Storage conditions:

Product must be stored in dry conditions (relative humidity under 65%), at 10°C to 25 °C, in closed packaging and odourless enviroment.

Packaging:

Material: Kraft multiwall paper bag with PE inliner, closed.
 Amount: 20 kg

Allergenic data:

Free of: Gluten, Shellfish, Crustacean, Celery, Egg, Mustard, Fish, Sesame, Nuts, Sulphur Dioxide, Mollusca, Soja, Lupine
 Contains mil proteins, refer to MSDS for further indications.

NON GMO:

The product includes no GMO and is not produced out of raw material which include GMO (in relation with regulation EC 1829/2003 and EC 1830/2003 of the European Commission).
